

Release Notes include New Features, Enhancements, and Fixes.

Internal users can use the ISSUE code to view the original Issue in JIRA.

External users can use the menu path in the DESCRIPTION to navigate to the page (screen) of the software application where the change was applied.

## NEW FEATURES

ISSUE	DESCRIPTION OF THE NEW FEATURE
MM-217	<p><b>Timeout Notification.</b> Users will now receive a pop-up warning that they are about to be timed out of the system. The User will have the option to keep working or logout.</p> <p><b>Benefit:</b> Reduces risk of potential data loss.</p>

## ENHANCEMENTS

ISSUE	DESCRIPTION OF THE ENHANCEMENT
MM-809	<p><b>Diagnosis Favorites list.</b> Path: Patient Dashboard &gt; Add Diagnosis. The User will now be able to mark previously searched diagnosis as favorites and then be able to retrieve them more easily from the diagnosis dropdown menu. The ability to create/edit the favorite diagnosis is restricted by role.</p> <p><b>Benefit:</b> Easier search functionality.</p>
MM-989	<p><b>Enhanced About Box.</b> Now lists the versions and build information for all three components of the system (Database, Backend, Frontend).</p> <p><b>Benefit:</b> More precise communication of version information in case of troubleshooting.</p>
MM-1416	<p><b>Refactor Advantage Interfaces:</b> This makes the configuration and coding of the Advantage interface more efficient and robust.</p> <p><b>Benefit:</b> Faster interface setup and less integration errors.</p>

FIXES	
ISSUE	DESCRIPTION OF THE FIX
MM-0021	<b>Patient Consent Forms.</b> Path: Client (selected) > Intake. Signed Patient Consent forms coming from Advantage to MedicalMime (via the MedicalMime-Advantage Interface) are now marked as complete.
MM-0336	<b>Client Intake Form - iPad Signature.</b> Path: Client (selected) > Intake > Form (selected) > View/Print. The user can obtain a Client Intake form signature on an iPad and can then view/print the form with the Signature scaled to fit the online form.
MM-0361	<b>Report Timeout Error.</b> When a report viewer window is inactive for a long period of time (> 1 hour) and then re-activated it is now displaying the timeout condition more gracefully.
MM-0410	<b>Diagnosis.</b> Diagnoses added do not appear as duplicates on clinical forms.
MM-0429	<b>Patient Merge.</b> User are now able to merge patients in the administration tab.
MM-0467	<b>Level of Care Transfer Date.</b> The Transfer date for each change in the Patient Level of Care is now displayed in the Level of Care dialog.
MM-0475	<b>Treatment Plan – Status Field.</b> The Status field on the Treatment Plan are now being displayed.
MM-0477	<b>Forms - Multi-tabbed Form.</b> Path: Forms > Assessment > Biopsychosocial History. The user can enter and save data in one or more tabs of a tabbed form, close the form, and open the form again with all the saved data intact; for example, Biopsychosocial History (8 tabs).
MM-0533	<b>Custom Group Note – Removing a Patient.</b> Users are now able to remove a patient from the Custom Group Note and the remaining patients are displayed, without having to refresh the screen.
MM-0580	<b>Diagnosis – Exporting.</b> Users are now able to export diagnosis without generating an error.
MM-0589	<b>Print Log of MAR filters and sort.</b> Previously the user could only sort the MAR list by DateTime; now the user can sort it by any column (such as Dose or Remaining Units) and it will also maintain that sort order when Printed.
MM-0608	<b>Administration – Roles Configuration.</b> Path: Administration > Roles. The Documents option has been returned to the Roles dialog.
MM-0610	<b>Edit Chart Note.</b> Users are now able to edit a chart note without creating a duplicate of the original note.

FIXES	
ISSUE	DESCRIPTION OF THE FIX
MM-0630	<b>MAR.</b> Path: Administration > Roles. In the Administration tab, the permission set previously labeled “MORS/MARS” has been updated to display “MAR”.
MM-0635	<b>Calendar – New Patient Icon.</b> The new patient icon has been removed from the New Appointment dialog.
MM-0646	<b>Bill Facility.</b> Path: Client record > Insurance. The option “Bill Facility” has been added to the Plan type in the insurance dialog for test that are to be billed to the ordering facility and not the patient or insurance.
MM-0655	<b>Report Preview.</b> User are now able to create a preview of various reports without generating any errors.
MM-0754	<b>Encounter Types.</b> Path: Client Record > Encounters. The duplicate encounter types have been removed from the drop down display.
MM-0819	<b>Groups – Duplicate Clients.</b> Path: Calendar > Group Notes and Patient Record > Encounters. When switching between signed groups on the calendar and a patient encounter, the patient list will no longer appear to duplicate names on the group note screen.
MM-0855	<b>Groups.</b> Path: Groups > Group Session > Edit Group Session (dialog). Patients already scheduled in the Group Session do <i>not</i> duplicate after another patient is added to the Edit Group Session dialog.
MM-0874	<b>Treatment Plan Status and Printing.</b> The user can now delete the Treatment Plan status. Also the layout of Treatment Plan when printed has been improved.
MM-0885	<b>Calendar – Overbooking.</b> Path: Calendar. Users will now get a warning to prevent overbooking of appointment when using the drag and drop feature on the calendar.
MM-0903	<b>Calendar – Appointment Search Results.</b> Appointments that have been deleted are no longer being displayed in search results.
MM-0922	<b>Lab Addendum.</b> Addendum reports sent through the Medical Mime/Advantage interface for Laboratory testing are now being displayed.
MM-0924	<b>Safari Browser.</b> Path: Patient Record > Documents tab. Users are now able to view PDF lab results when using the Safari browser on a MAC computer.
MM-0947	<b>Intake Forms not loading.</b> Intake forms will now automatically load if the Level of Care is entered before the Admission Date for a patient.
MM-0959	<b>Patient Card Display.</b> The Patient Name display on the Patient card will now wrap for patients with very long names.

FIXES	
ISSUE	DESCRIPTION OF THE FIX
MM-0989	<b>About.</b> The about dialog now shows the current version and build number of the software.
MM-1117	<b>Calendar – Tool Tips.</b> Incorrect tool tip displays have been removed from the calendar screens.
MM-1119	<b>Calendar – Group Session cards</b> now no longer show a default room in their tooltip as this applies only to appointments.
MM-1131	<b>Calendar.</b> All recurring group appointments are now being displayed on the calendar.
MM-1133	<b>Group Leader.</b> Inactive staff will now be displayed for groups they are associated with.
MM-1155	<b>Calendar – Counselor.</b> The schedule for all counselors are now displayed with the filter is set to “All” in the calendar.
MM-1180	<b>Custom Group Session Form.</b> Notes from the Custom Group session form will now transfer to the encounters tab.
MM-1208	<b>Spell Check auto-corrections in custom forms</b> are now saved properly.
MM-1213	<b>Reports – Printing.</b> Reports containing more than 50 rows of data are now displayed properly.
MM-1215	<b>Calendar – Signature.</b> Client signature will now be displayed on group sessions after the session is completed and not when it is created.
MM-1218	<b>Default checkbox on true</b> now shows correctly when printed.
MM-1280	<b>MAR – PRN Medications.</b> PRN Medications added and administered through the MAR screens will now be display with the appropriate status on the MAR screens.
MM-1325	<b>Administration – Patient Merge Button.</b> Path: Administration > Tools. The Patient Merge button will now be consistently displayed on the toolbar.
MM-1326	<b>Administration – Patient Merge Pop-up.</b> Switching between the Patient Merge and other tabs in the Administration will no longer cause duplicate windows to pop-up.
MM-1327	<b>Administration – Patient Merge Duplicate.</b> After merging patients, only the patient record that the user specifies as the primary record to be retained will be displayed. The secondary record will be flagged as inactive and not be displayed.
MM-1331	<b>MAR – Mar Log.</b> The MAR log will now display the correct remaining units of the medication being administered to the Patient.

## FIXES

ISSUE	DESCRIPTION OF THE FIX
MM-1391	<b>Forms display and Printout.</b> The printout of Forms will now match the displayed fields on the screen.

## KNOWN ISSUES

ISSUE	DESCRIPTION OF THE KNOWN ISSUE
MM-1035	Medication Taper Orders interaction with MAR is somewhat limited. For example, tapers at present cannot change frequencies over the life of the taper.
MM-1392	Wrong timezone in Report. For some reports, when these reports are run from computers in a timezone different from the hosting server there can be discrepancies in the displayed dates.
