

Release Notes include New Features, Enhancements, and Fixes.

Internal users can use the ISSUE code to view the original Issue in JIRA.

External users can use the menu path in the DESCRIPTION to navigate to the page (screen) of the software application where the change was applied.

## NEW FEATURES

ISSUE	DESCRIPTION OF THE NEW FEATURE
<a href="#">MM-1817</a>	<p><b>Tool to export all Medical Mime patient data.</b> When a client requests all their patient data in archive format, this new tool provides all their client data including client demographics, insurance, intake vitals, encounters, forms, medications, group sessions, appointments, labs, documents, etc.</p> <p>Benefit: Improved convenience and contract compliance.</p>

## ENHANCEMENTS

ISSUE	DESCRIPTION OF THE ENHANCEMENT
<a href="#">MM-1141</a>	<p><b>Update current VOB with current codes.</b></p> <p>Benefit: VOB form now contains all current and relevant codes for a particular facility. This is particularly useful for clients with both MedicalMime and RCM services.</p>
<a href="#">MM-1673</a>	<p><b>Group sessions printed out in the Encounters tab should have the group topic at the top of the sheet.</b></p> <p>Benefit: Printout of group session is easier to read and associate with title / topic.</p>
<a href="#">MM-1823</a>	<p><b>Implement audit logging in user verification service used in 2 factor authentication.</b></p> <p>Benefit: This will increase the security and auditability of login attempts with proper timestamps and time-zone handling.</p>
<a href="#">MM-1824</a>	<p><b>Host user verification service over SSL for external access.</b></p> <p>Benefit: Increase security and better interoperability by supporting a more secure access protocol and limiting IP ranges to known internal Rennova products.</p>

FIXES	
ISSUE	DESCRIPTION OF THE FIX
<a href="#">MM-0607</a>	<b>groups - custom groups not showing group note.</b> When clients are using both group notes and individual notes with group sessions, the display and print are now showing both of those notes.
<a href="#">MM-0661</a>	<b>Intake Form building bug.</b> This fixes an issue where creating a new form without title would lose some data when clicking edit report.
<a href="#">MM-0735</a>	<b>use form date - date fields - save and refresh changes date by 24 hours.</b> Fixes an issue of date changes on date fields in forms.
<a href="#">MM-0913</a>	<b>Tabbed form - duplicate form - double data.</b> Fixes an issue related to duplicating a tab on a custom form without duplicating all the contained data.
<a href="#">MM-0953</a>	<b>Client Photo Disappears.</b> Addresses a data loss issue where multiple users update demographics of the same patient at the same time.
<a href="#">MM-0958</a>	<b>Form builder - First letter bug - Radio buttons and dropdowns.</b> Fixes a display issue related to typing in a search term in a list data field.
<a href="#">MM-0975</a>	<b>Schedule - Show Type Filter not working properly.</b> Corrects filter settings function in weekly Calendar View.
<a href="#">MM-1146</a>	<b>Encounters-Edit group session icon not working.</b> Fixes an issue related to navigating to a group session from the encounters tab (rather than from the calendar).
<a href="#">MM-1176</a>	<b>Groups-Custom Group Note overriding original client note template.</b> Addresses an issue with merging individual and group notes for patients in a group session.
<a href="#">MM-1210</a>	<b>Stop Mar Warning/Discontinue.</b> This fix is to properly stop a scheduled mar when the medication is deleted or discontinued.
<a href="#">MM-1219</a>	<b>Calendar - Recurring Groups - can't add clients to initial occurrence.</b> Clients can now be added to recurring groups regardless of creation sequence.
<a href="#">MM-1230</a>	<b>VOB - fix typo for JCAHO.</b> Fixes incorrect spelling on VOB form.
<a href="#">MM-1646</a>	<b>LOC - Deleted LOCs not deleted and visible.</b> Fixes an issue where deleted Levels of Care for a patient would reappear.
<a href="#">MM-1736</a>	<b>Shift Reports - housing list not updated.</b> When adding (deleting) a new Housing option, this option now (no longer) shows up in the Housing dropdown filter for shift reports.
<a href="#">MM-1798</a>	<b>Print feature sorting needed by provider and date.</b> Calendar print out is now sorted first by provider and then by date.

FIXES	
ISSUE	DESCRIPTION OF THE FIX
<a href="#">MM-1799</a>	<b>Create Intake forms window closing automatically on save.</b> When creating a new Intake form and saving, the dialog remains open so that the user can edit it immediately and build the new form.
<a href="#">MM-1831</a>	<b>User Verification Service - did not recover after loss of db connection.</b> This fix increases the resilience of our backend verification service (required for 2 factor authentication).
<a href="#">MM-1882</a>	<b>Cannot scroll default Group Session Notes in a patients Encounters tab.</b> Fixes an issue with default group session notes.
<a href="#">MM-1938</a>	<b>Clicking the No Medications button in New Medication will hard delete all Patient Medication.</b> Button changed to “No Current Medication” and avoided deletion of past medications.
<a href="#">MM-1943</a>	<b>Phonetic Artifacts in Exported Vitals.</b> Correct use of degree symbol in exported vital report.

KNOWN ISSUES	
ISSUE	DESCRIPTION OF THE KNOWN ISSUE
<a href="#">MM-0496</a>	<b>Update Policy Holder Information on Insurance Tab.</b> Policy Holder area needs more separate fields designed to match CollaborateMD.
<a href="#">MM-0847</a>	<b>Combined Schedule - Overbooking not linked to group/appointment.</b> Currently a patient can be overbooked for both an individual appointment and a group session at the same time.
<a href="#">MM-1217</a>	<b>Create One New Standard Census Report that is debugged for each new client.</b> Requests a standard report template that can be used for all clients (with custom modifications per client as needed).
<a href="#">MM-1579</a>	<b>Tasks - send reply to another user fails without any message.</b> In some circumstances, a user will not receive a reply when another user sends a reply to a given task.
<a href="#">MM-1803</a>	<b>2FA - Email address for verification email is not properly masked out.</b> The dialog notifying the user where the security token has been emailed to needs to properly mask the email address except for the first and last few characters, even with very short domain names.
