

Release Notes include New Features, Enhancements, Fixes, and Known Issues.

Internal users can use the ISSUE code to view the original Issue in JIRA.

External users can use the menu path in the DESCRIPTION to navigate to the page of the software application where the change was applied. Consult with your Solution Consultant for more information.

NEW FEATURES	
ISSUE	DESCRIPTION OF THE NEW FEATURE
	No large new features in this release

ENHANCEMENTS	
ISSUE	DESCRIPTION OF THE ENHANCEMENT
MM-791	Groups-Change Add Patient to Add Client: Minor change for consistency in referring to clients.
MM-1045	Forms-Signature Permission for Client: This allows a customer side admin to add signature permissions for their clients.
MM-3182	Adding cell phone # and email "fields" in the Intake Form Builder: This simplifies Intake as the email and phone fields are already captured in demographics and now auto-populated in the Intake forms.
MM-3187	User Signature-Should not retroactively change: When a user's credentials change (for example after passing a new certification), apply those new credentials only to future signatures, not to those from the past (for compliance reasons).
MM-3214	Med times are not in correct time order on MAR: Better usability of MAR screen and sorting of meds by client.

FIXES	
ISSUE	DESCRIPTION OF THE FIX
MM-2885	Calendar- updating/deleting appointment comments will still show up in the tool tip window
MM-3199	Group session - Custom group note not showing for clients
MM-3218	Group Session - Cannot do individual client note in newly created group session
MM-3221	Signing as the Client first will also remove the logged in User from the signature pending in the staff dashboard
MM-3230	MAR-Discontinuing a Medication does not remove it from the MAR

KNOWN ISSUES

ISSUE	DESCRIPTION OF THE KNOWN ISSUE
	No additional known issues
